

RUGBY SCHOOL
JAPAN

STATIONERY

Ready for the first day of School, pupils will need to be equipped with their own basic stationery as follows:

- ☐ Pens, pencils and highlighters
- ☐ Ruler
- ☐ Eraser
- ☐ Glue Stick
- ☐ Scissors
- ☐ Mathematical apparatus (protractor and compass set)
- ☐ School approved calculator
*Please see below
- ☐ Lined paper or notebook

* Calculators for New Pupils

All pupils need a calculator for Mathematics and Science courses. There are considerable advantages to everyone in a class using the same type of calculator, hence we have made recommendations below as to the styles that we believe best suits the needs of our pupils.

Pupils taking A-level Mathematics or Further Mathematics:

Casio FX-991CW

- Specific guidance will be given in lessons as to how to use this calculator.
- An alternative option can be The Casio FX CG50 which is an increasingly popular choice with A-level pupils.

For Lower and Middle School pupils:

We recommend also choosing the **Casio FX-991CW**

- This will save the need for a future purchase if they are thinking of studying Maths at A level
